About Us:

Established in 1991, Benefit Communicators has over seventeen years of experience in the insurance industry as a trusted brokerage firm. As brokers we have the ability to provide insurance products from many of the top A++ respectable insurance companies. This has allowed us to help employers enhance and reshape their employee benefits packages to become more detailed and cost effective. By offering affordable products to meet the changing needs of your employees and their families, this will allow employers to retain quality employees and stay ahead in the benefits marketplace.

Because we listen to our clients' needs and concerns, we have had the opportunity to expand our services to provide our clients with innovated enrollment technology and support systems. This has allowed every benefits package to become easy to manage and most importantly informative.
